**REMARKS**

The notice of allowable subject matter in Claims 6 and 12-15 is gratefully appreciated.

In an effort to expedite prosecution of the present application to a favorable conclusion, applicant has rewritten objected to Claims 6 and 12 in self-contained form, to include all of the subject matter of the claims from which they previously depended. In the process, applicant has incorporated the suggested amendment to Claim 9 Line 2 in amended Claim 7.

Applicant has also amended Claims 13 and 14 where appropriate, to recite an electrical energy storage device rather than a capacitor, and to reference the current source as "said current source".

In the absence of anything further, it is believed that the application is now in condition for allowance. A notice to that effect is, accordingly, earnestly solicited.

Should any minor informalities need to be addressed, the Examiner is respectfully requested to contact the undersigned attorney at the telephone number listed below.
